## Smartphone payment build in

Connect control / Article no. 21-5-60-00102

Paying with a smartphone is the payment system of the future for your solarium, vitafloor or treadmill.

Through the app, users can check availability, book a time and pay for their desired services

The smartphone connects to the device via Bluetooth.

When a payment is made, the app verifies the payment, sends a signal to the machine and the machine is ready for use. As owner of a livery or riding school, you indicate in advance how much you want the users to pay. They pay a fixed price per minute.

All payments are kept in an administration system and once a month there will be a paid out to your bank account and your payment invoice will be uploaded to the Q-Line customer portal. A fixed fee per transaction is charged for this service.

No administration, no hassle with coins, tokens or tickets. Q-Line can track all transactions for you. In short, ideal for allowing your customers to pay mobile for the use of the device.

- ✓ Fee App
- ✓ Cashless
- ✓ Safe
- ✓ Reliable to use
- ✓ Administration free
- ✓ Booking system
- ✓ Splash proof

## Characteristics

### **Safety:**

The unit is splash proof.

### **Appearance:**

The smartphone payment unit comes in a shock housing and has a power cord with plug and a cable to connect with your device.

### **Maintenance:**

Due to the technologically advanced design and the materials used, there is virtually no wear or corrosion, which means that hardly any maintenance is required.

### **Quality mark:**

All payment units are provided with the CE mark as standard, and meet all European safety requirements.

### **Transparent prices:**

At Q-Line you pay a fixed amount on every transaction. No standard, service or internet costs.

### **Administration free solution:**

Don't waste time on bookkeeping, collecting coins, replacing cards, or struggling with refunds.

### **Reliable and easy to use:**

Q-Line has a stable and user-friendly app for the users, which accepts all telephone numbers and payment cards, making paying with the smartphone super easy.
