

Mercurr Solarium

with UV lights

Mercurr Solarium UV 400 / Article no. 20-5-05-20400

The MeRCuRR is built to the highest specification with a heat resistant, colored reinforced plastic body. Because of its compact shape the solarium is in combination with a washing place the ideal place to take of your horse. The front is raised to allow free movement of the horses neck and features rounded edges to avoid injury. A combination of 22 IR lamps and 4 circulation fans ensure an even and pleasant temperature over your horse.

The 2 UV lamps are an excellent substitute for the sun. The radiators have a regulative effect on the vegetative nervous system and an increase in the elasticity and responsiveness of the Redox system. For the organism this means preservation and under certain circumstances even an increase in performance.

- ✓ Chamfered neck part
- ✓ Rounded edges
- ✓ Good heat partition
- ✓ Suitable for washroom
- ✓ Automatic Circulation air blower
- ✓ CE Marking

Characteristics

By using a high-quality infrared lamp (see downloads), a plastic body and plastic lamp holders, the efficiency of the solarium is much higher than the conventional solariums. The lamps are placed higher than the bottom surfaces and cannot fall out of the fitting. This minimizes the chance of contact with the warm IR lamps. The fans automatically switch on at an internal temperature of 30 degrees C so that no cold air is blown over your horse.

Specifications

Length	190 cm
Width	132 cm
Thickness	40 cm
Weigth	45Kg
Basic material	Reinforced heat resisting plastic
Colour	Black / Silver Grey
Number of IR lamps	20 x 150W
Power supply	3xL+N+PE 400 Volt
Power usage	3720 Watt
Fuse with	3x16A
IP rating	IP 54
Air blower	4x 90m3, automatic at 30grC
Suspension	4x chains (1 meter) and swing hooks
Suplied as standard	Power cable 10 mtr including plugs
Quality mark	CE / NEN 3140 / OSH
Transport weight	65 kg
Transport size	1 pallet 120x80x220 cm
Number of UV lamps	2 x 300W
